PROFILE

A passionate and detail-oriented UI/UX designer with a strong foundation in user-centered design principles. Skilled in wireframing, prototyping, and creating intuitive, visually appealing interfaces using tools like Figma . Eager to translate user needs into delightful digital experiences, with a focus on usability, accessibility, and responsiveness.

PROJECTS

Fast-Food

Developed a visually appealing and user-friendly interface for a food delivery mobile application aimed at enhancing user experience and simplifying the food ordering process.

Key Responsibilities:

- Designed wireframes, prototypes, and high-fidelity mockups using Figma
- Collaborated with product managers and developers to create intuitive user flows and interactions.
- Implemented a clean, modern design aesthetic to improve navigation and usability.
- Designed a responsive UI that adapts seamlessly to various mobile devices and screen sizes.
- Focused on user-centered design principles by incorporating feedback from usability testing to optimize user experience.
- Created a design system for reusable UI components, ensuring consistency across the application.
- Applied color theory and typography to create visually balanced layouts and clear CTAs.

Tools: Figma

Skills: Wireframing, Prototyping, User Research, Usability Testing, Responsive Design, Visual Design
